Wedding Videography Packages

WHAT SETS US APART?

UNLIMITED HOURS

Many times you'll find that photographers and videographers define their packages with hours. A 4 hour package, 6 hour package, etc. We are with you all day. From the getting ready moments to the final sendoff at your reception. We capture it all.

WE GO "ALL IN" FOR EVERY WEDDING

Most couples choose package 2 or 3 however, regardless of which package you choose, we film each wedding as if it was a package 3 wedding. Why? Because often times we find that couples who choose package 1 wish they had chosen package 3 after the wedding. The main difference is in the editing time required. So we keep all your extra wedding footage for up to 6 months, allowing you time to upgrade if you so choose.

WE AREN'T CREATIVE DIVAS

This is your day, not ours. So you can also have an uncle who takes pictures or video, you can choose to receive all the raw un-edited footage after the wedding, and you can use the footage however you like, it's yours!

WE HAVE THE EXPERIENCE

We have a simple philosophy when it comes to wedding videography. We capture each wedding in breathtaking detail and with you in mind. Each couple is unique and has a story to tell. We capture more than an event, we share your story. We will bring the latest gear, include multiple cameras, record professional audio, and capture incredible drone footage. We go all in.
